

AJMERA MARBLES  
INDUSTRIES

The image shows a modern exhibition stand for Ajmera Marble Industries. The stand is constructed from dark grey vertical pillars and horizontal beams, creating a series of open-air sections. The top of the pillars features the company logo and name. The interior of the stand is brightly lit with recessed ceiling lights. On the left, there are several display panels showing various marble and stone samples. In the center, there are two small round tables with white chairs, providing a seating area. To the right, there are more display panels, including one with a stone wall texture. The overall design is clean and professional, highlighting the company's products.
